

New funds launching soon...

On September 8, Mackenzie will enhance its suite of investment solutions with the launch of two new mutual funds.

- **Mackenzie Inflation-Focused Fund:** this unique investment solution gives Canadian retail investors access to a tactically managed portfolio of assets that we expect to be collectively resilient to inflation.
- **Mackenzie USD US Mid Cap Opportunities Fund:** this fund provides investors with an opportunity to diversify their portfolios and invest their US dollars in a fund with alpha potential.

Details to assist in the fund set-up can be found [here](#).

Additional information can be obtained from the FD file, available [through Fundserv](#) on September 6 with an effective date of September 8.
